

## DENTAL EMERGENCIES

At the request of the State of Ohio, the Ohio State Dental Board and the Ohio Dental Association, Family Health has agreed to provide care for Dental Emergencies in the event of a complete shut down due to Covid-19.

If you are a Family Health dental patient or if your personal dentist office is closed, due to Governor DeWine's mandatory shut down, Family Health will see you for your dental emergency only.

For your own safety, you will be screened prior to being scheduled with a Family Health dentist.

For a dental emergency, please call 937-547-2326. Our regular clinic hours are 8am-5pm Monday-Thursday. Evenings and Friday through Sunday call Wayne Healthcare who will relay your message to the dentist on call.
